

## **Teenagers and Young Adults wanted for a study about reading habits and preferences**

Do you like to read? Do you wish you had more time to read? Did you read a lot when you were younger, but not so much now? Do you dislike reading or see yourself as a non-reader?

We are seeking participants for an interview study on the reading habits and preferences of teenagers and young adults. You are invited to participate if you are:

- between 15-20 years of age
- willing to talk about your reading habits
- willing to have your interview audio-recorded.

The study will require a conversational interview that will last anywhere from 30-60 minutes. The interviews will be scheduled at times and in places that are convenient to you, during the month of October 2018. Skype interviews are also possible. There are no known risks associated with this study.

If you are interested in participating in this study, or if you would like more information, please contact:
